Notes:

Supply Chain Management (SCM) suite consists of the following
products: Aspen Collaborative Demand Manager (CDM), Aspen Plant
Scheduler, Aspen Supply Planner, Aspen Distribution Scheduler, Aspen
Inventory Planner, Aspen Scheduling Insight, Aspen Supply Chain Analytics
and Aspen Supply Chain Connect (ASCC).

* In general, AspenTech aspenONE® software license agreements with customers permit use of the licensed software on Supported Computers at customer Sites. "Supported Computers" include computers with a manufacture, model and operating system for which AspenTech offers a supported version of the software, and that are controlled by the customer. "Sites" are customer facilities or locations specified in the license agreement.

AspenTech permits customer use of licensed aspenONE software in the cloud where: (i) the Platform Support specifications published by AspenTech for the relevant version of the software product include cloud support; (ii) only the customer has access to the licensed software hosted by the cloud service provider; and (iii) the user is accessing

[7] Must be in compatibility mode for Aspen Process Recipe & Aspen Process Sequencer and Collaborative Forecasting

[8] Refer to KB 47648 For more information on configuring SCM products using Azure:
https://esupport.aspentech.com/S_Article?id=000047648
When running software on a virtual machine, the machine should meet the same requirements.

If running standalone, 1280 x 800 is the minimum recommended resolution monitor for servers.

Your Aspen SLM Server must be installed and running prior to installing any V10 product.
We employ EMET 5.5 to harden our testing environments with the understanding that EMET will reach its EOL on July 31, 2018
